Step into the transformative world of heart-centered intelligence, where the magic of mental imagery awaits. For centuries, the practice of mental imagery has held the key to unlocking inner wisdom, igniting transformative change, and forging connections to the divine realms. This experiential class teaches students how to turn their senses inward to access their intuition and unlock their inner guidance, healing, and growth. Each week, students are led through multiple illuminating imagery exercises and will have the opportunity to share their awe-inspiring experiences with a close-knit group of fellow seekers. Through practice, students learn to decode and interpret the language of images and develop the skills to create personalized imagery exercises. GROUP DREAM READING

Starts Tuesday, September 8, 2026

Meets every other Tuesday from 2:00-3:30pm EDT

Every night, as we slumber, a world of profound meaning and revelation awaits us in the realm of dreams. These nighttime visions not only help us process our daily events but also carry vital messages that transcend the boundaries of our waking lives—spanning the social, emotional, mental, spiritual, and physical dimensions.

To harness the true power of our dreams, we must learn the art of interpretation. In this transformative class, we believe that one person's dream holds significance for everyone. Each week, a close-knit group of students will share their dreams, fostering a sacred space for exploration and growth.

Together, we will embark on a thrilling journey of dream analysis, uncovering the profound analogies between dreams and waking reality. Through engaging class discussions, we'll learn to decipher the language of dreams, unlocking their meanings.

Armed with this newfound wisdom, you'll master the art of dream reversal—a powerful tool to elicit guidance and invoke tangible changes and healing in your waking life. Your dreams will become a wellspring of clarity and empowerment, guiding you towards the path of self-discovery and transformation.

"Working with my dreams, I felt like a part of myself was revealed, an intrinsic part of myself that I'd kept hidden, not because I wanted to keep it hidden, but because there hadn't been a mirror in my life to reflect it up until this time." – E. A., Group Dream Reading Student
